

# Standard Digital Media Player

Model 7023

# Standard Digital Media Player

Connect this Digital Media Player to your Plasma, LCD or Projector to advertise, entertain or present your digital media content. Simply download your MP3, JPEG, M-JPEG or MPEG 1-4 content to a flash card and plug into the media player. You will be able to play a constant loop of your media or select specific files using the included IR remote control.

This durable digital player can be used to replace any VCR, DVD player, or Hard Drive you are currently using to play your media content.

Great for powering any TV/Video Monitor, Plasma, or Large Format LCD's
